

Earned Value Management System **A Manager's Tool**

Integrated **(Cost, Schedule and Technical Performance)** **Management**

Dale L. Stewart, PMP, MBA

Earned Value Management

Topics

- **Earned Value**
 - ◆ What is EVM?
 - ◆ Management vs. Reporting
 - ◆ Why?
 - ◆ Key Building Blocks
 - ◆ Results

Keynote Themes

- **Industry (Private Sector)**
 - ◆ EVM has a cost factor
 - ◆ Pays “big time”
 - ◆ Improves bottom line
 - ◆ Customer satisfaction
 - ◆ More bang for buck
- **Government**
 - ◆ Contract control
 - ◆ “No surprises”
 - ◆ Fully obligate funding

Industry Standard

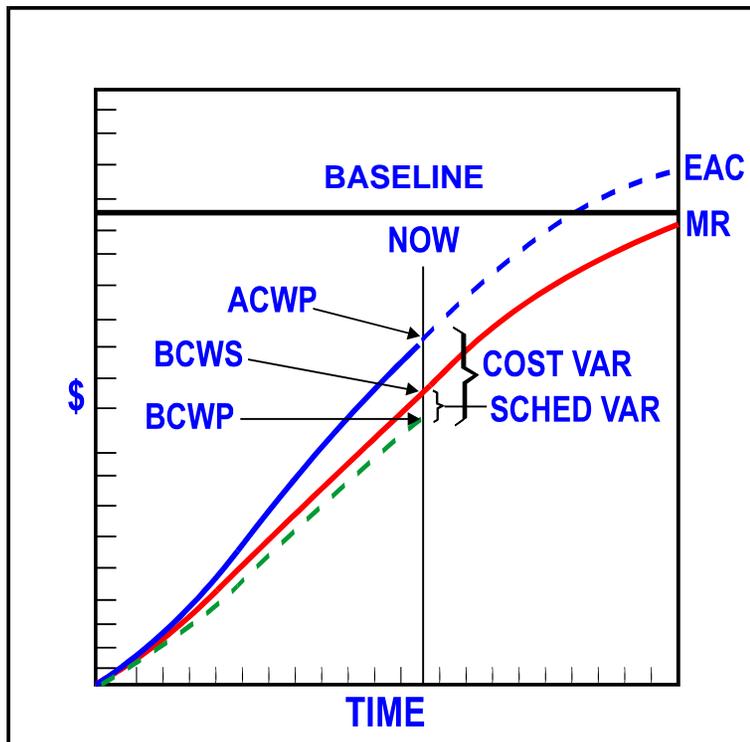

ANSI/EIA 748-98 EVMS, 1998

- **What is EVMS:**
 - ◆ **Objective structured approach:**
 - 32 management systems/process attributes
 - Grouped by five process groups
 - Organization (5)
 - Planning (10)
 - Accounting (6)
 - Analysis (6)
 - Changes (5)

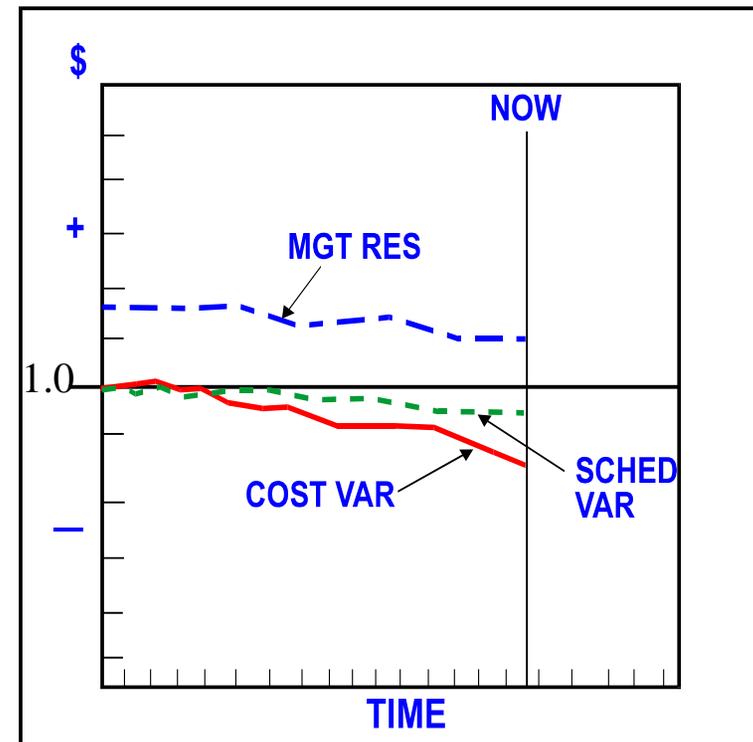

Graphic Analysis

Key Data Elements (cont'd)

Performance Measurement Baseline

Cost & Schedule Index

EVMS - What's the Objective?

- **Comprehensive planning process**
 - ◆ Covers entire statement of work (Use WBS)
 - ◆ Schedules activities (Critical Path)
 - ◆ Allocates resources
- **Fully integrated management systems**
 - ◆ Scheduling system, accounting system, procurement system, work authorization system, work measurement system, etc. For example:
 - Interdependencies between department, functional, and/or team schedules (horizontal integration)
 - Interdependencies from lowest level to master schedule (vertical integration)

Earned Value Management: Implementation Problems

- **Seems like “financial management”**
- **Audit-like reviews**
- **Government-required reporting**
- **Incorrect focuses**
 - ◆ **Inaccurate data**
 - ◆ **Under utilized**
- **Challenge:** - **Keep good principles**
- **Stop bad practices**

How much is it going to cost?

(One way to do it)

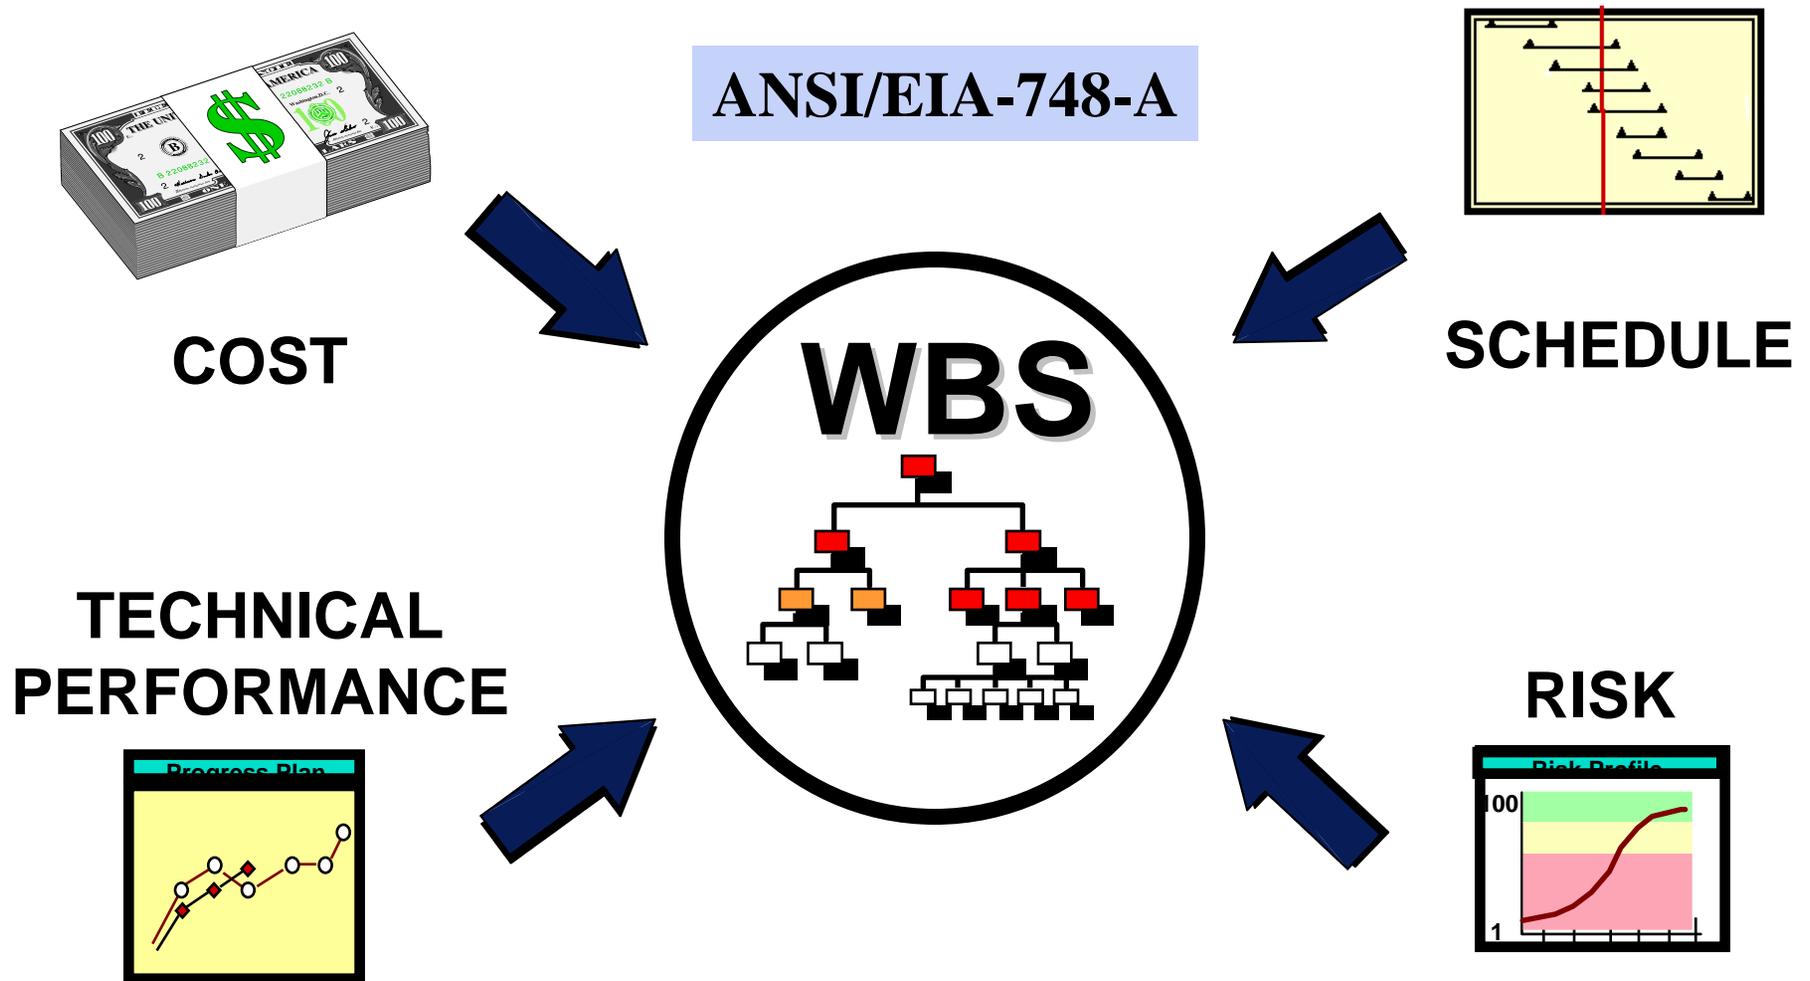

- **Cost Performance Index**

$$\frac{\text{BCWP}}{\text{ACWP}} = \frac{\$ 33}{\$ 37} = 0.89$$

- **Estimate at Completion**

$$EAC = \frac{\text{Target Cost}}{\text{CPI Index}} = \frac{\$ 100}{0.89} = \$112 \text{ forecast}$$

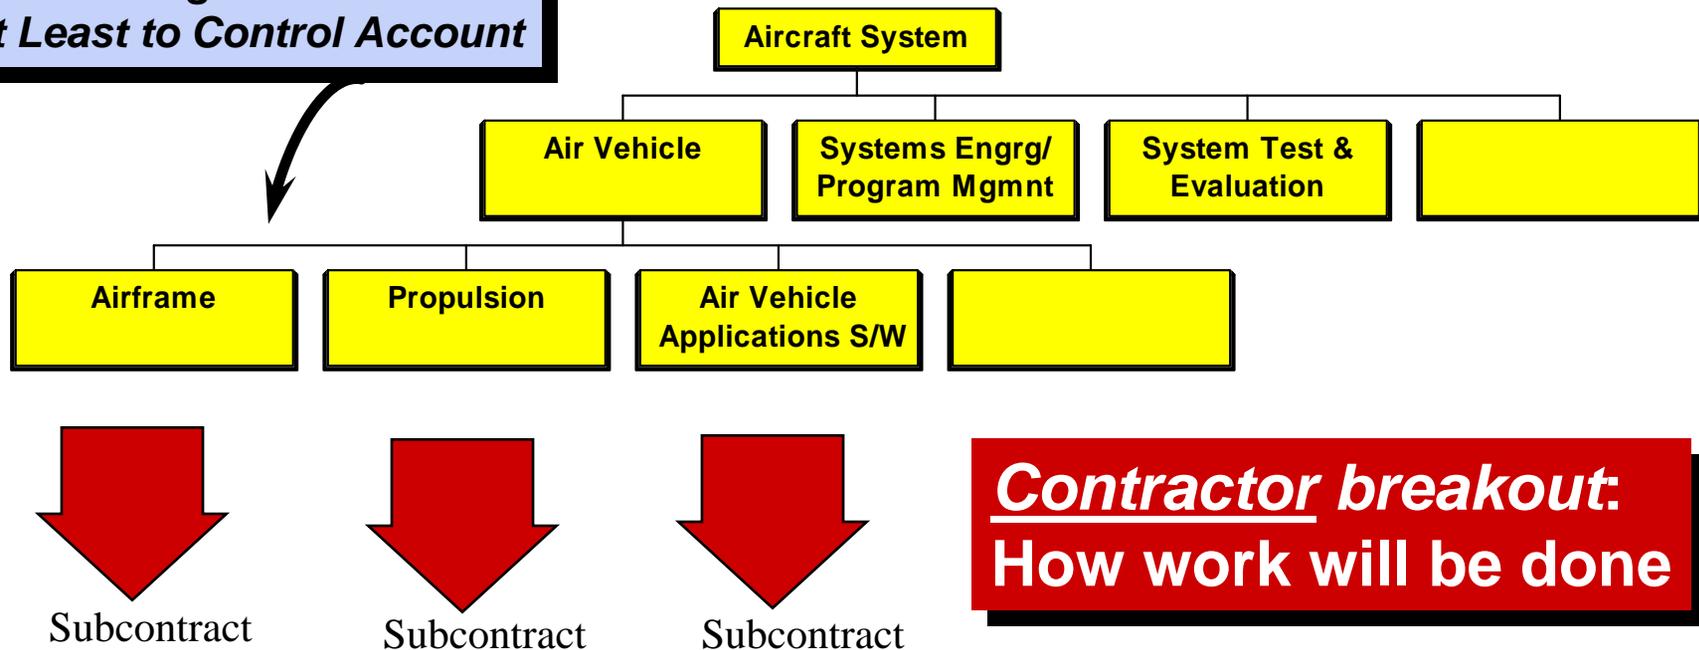

Work Breakdown Structure: The Key to EVMS Integration

Integrated Management: Work Breakdown Structure

**WBS "Dictionary" (defines the program)
Product-Oriented**

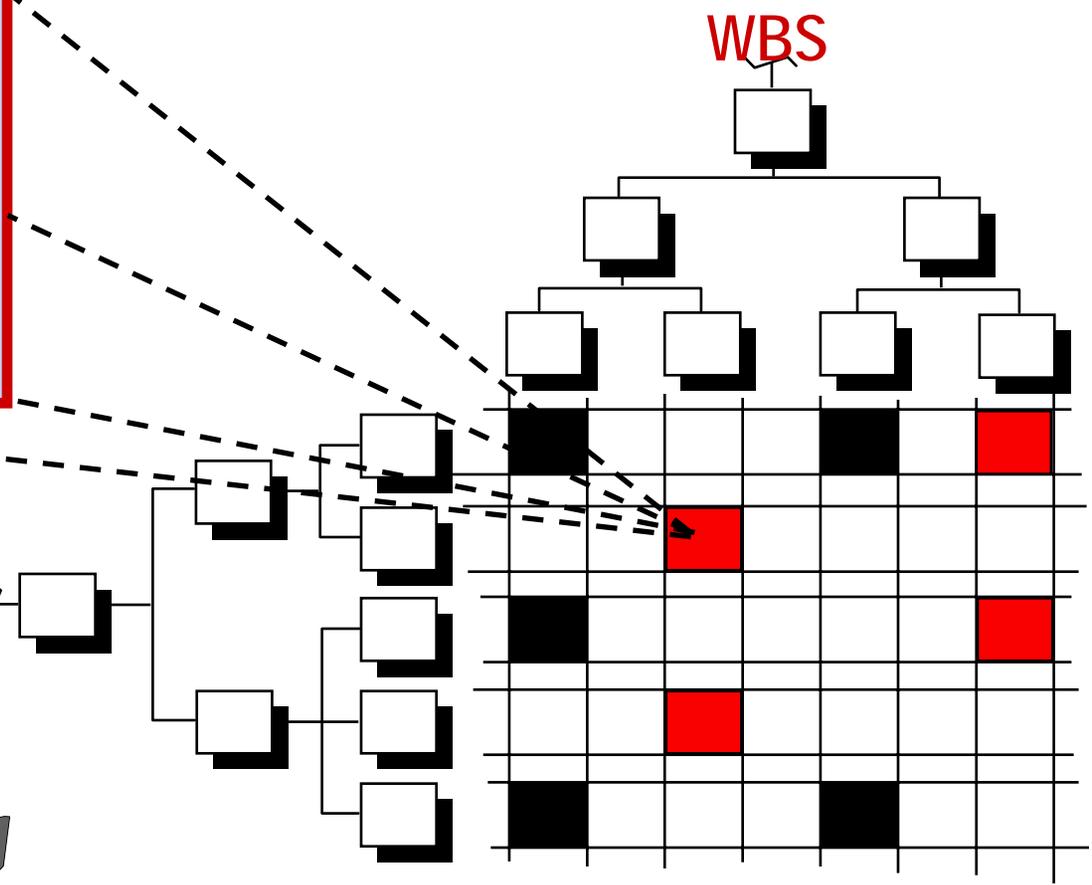

**ANSI guidelines:
At Least to Control Account**

The Control Account: Where the Action is

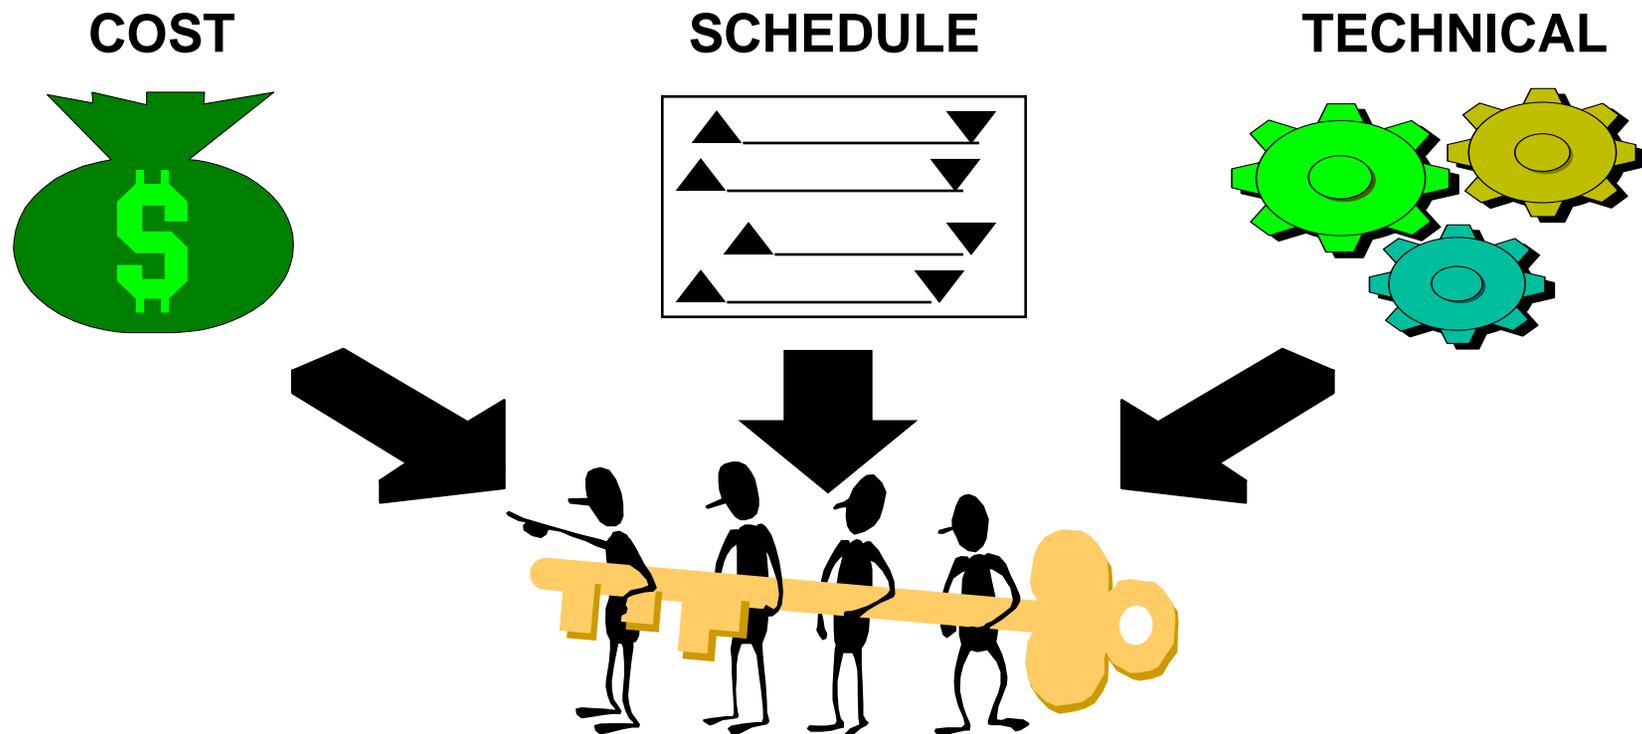

- *Plan*
- *Budget*
- *Schedule*
- *Corrective Action*

ORGANIZATION

CAs Intersect the OBS

Integrated Project Teams: The Key to Success

**Management systems don't manage - people do!
EVM is used to identify, communicate and *manage*
the resource effect of technical and schedule problems**

Today's EVMS:

- **Earned value ownership**
 - ◆ Project team owns the data
 - ◆ Government provides direction
 - ◆ PMs ensure data integrity
- **Better EVMS tools**
 - ◆ Software and graphics
- **Integrated Baseline Reviews**
 - ◆ Improved planning process
 - ◆ Better technical/risk management

Roadmap - Requirements to Competitive Advantage

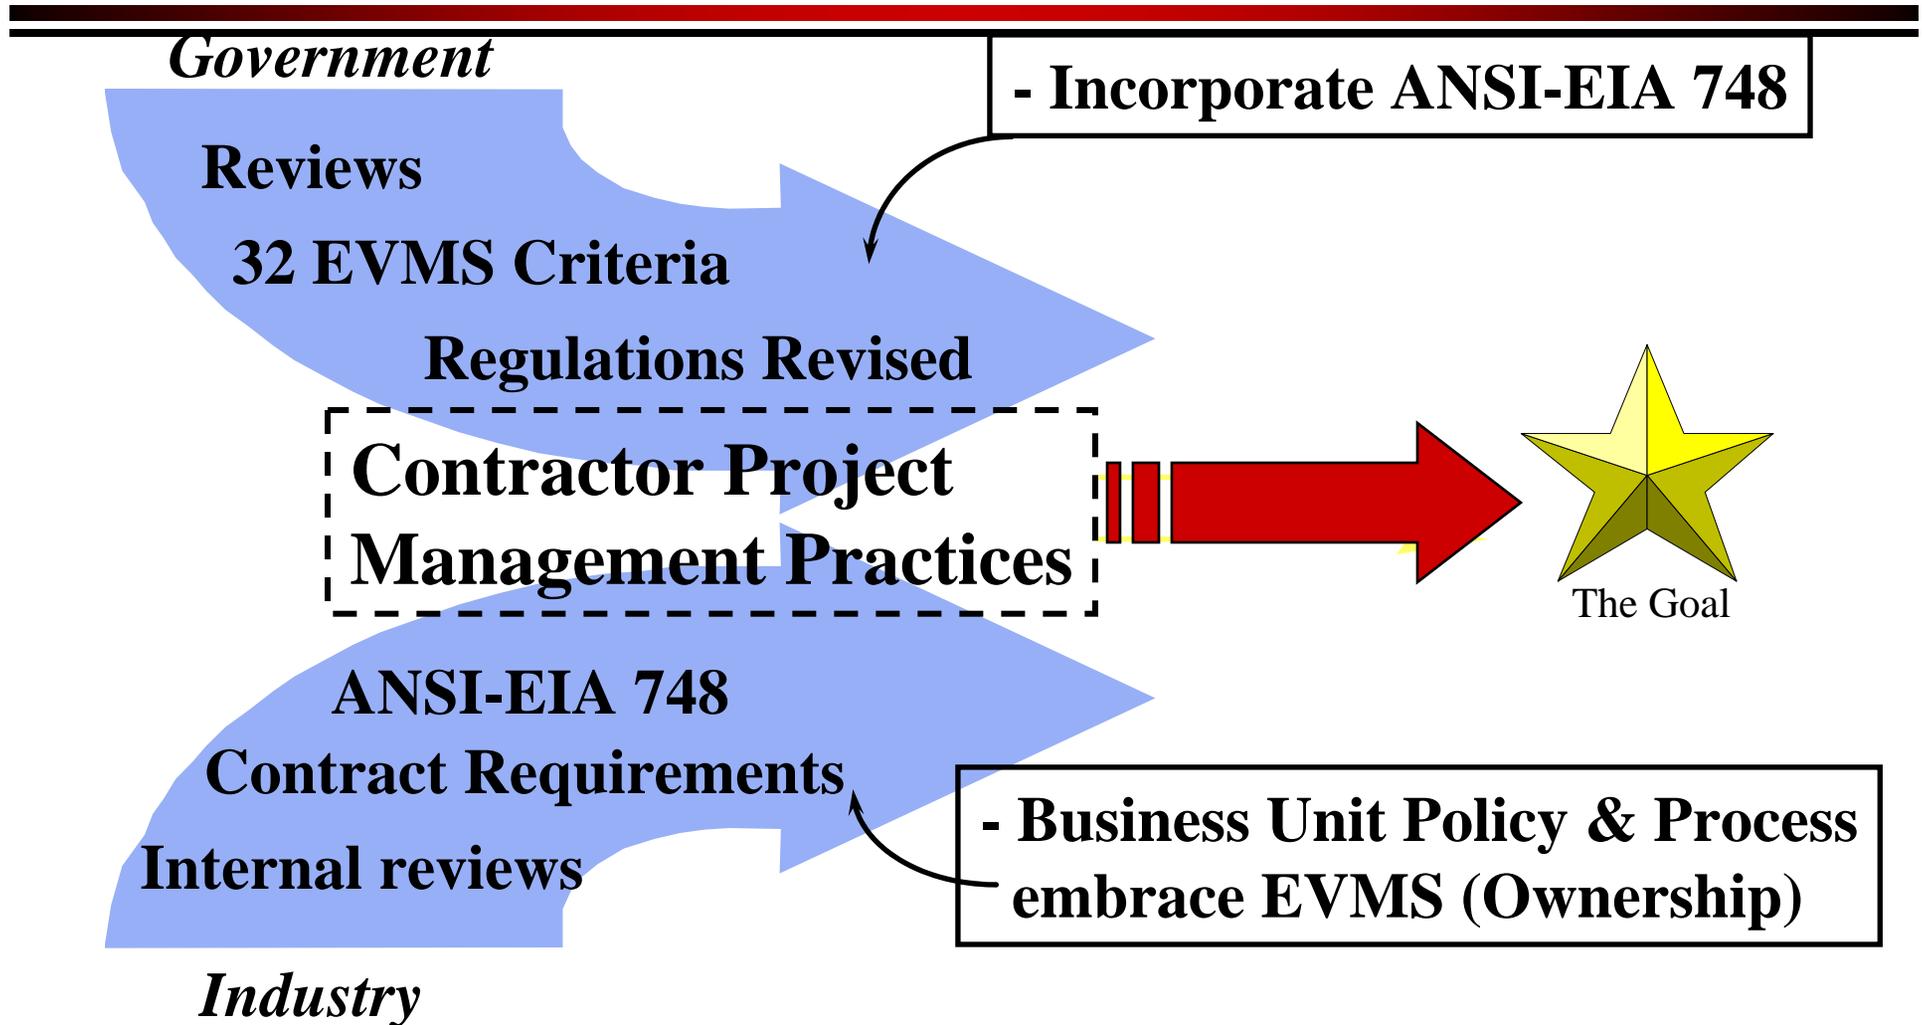

- Private Sector Industry
 - ◆ Grow business (new contracts)
 - ◆ Achieve customer expectations (contract performance)
 - ◆ Achieve stockholder expectations (improve financial results)
- Government
 - ◆ Reduce project costs
 - ◆ Reduce schedule risk
 - ◆ Program success: improve predictability

Roadmap - Requirements to Competitive Advantage

- **Common EV business processes give the program manager the tools to avoid reinventing the wheel for each program.**
- **EV is a tool integrating technical, schedule and cost performance measurement and analysis data for management.**
- **Cost savings and competitive advantage come from a broad business application**
 - ◆ **Company-Wide**

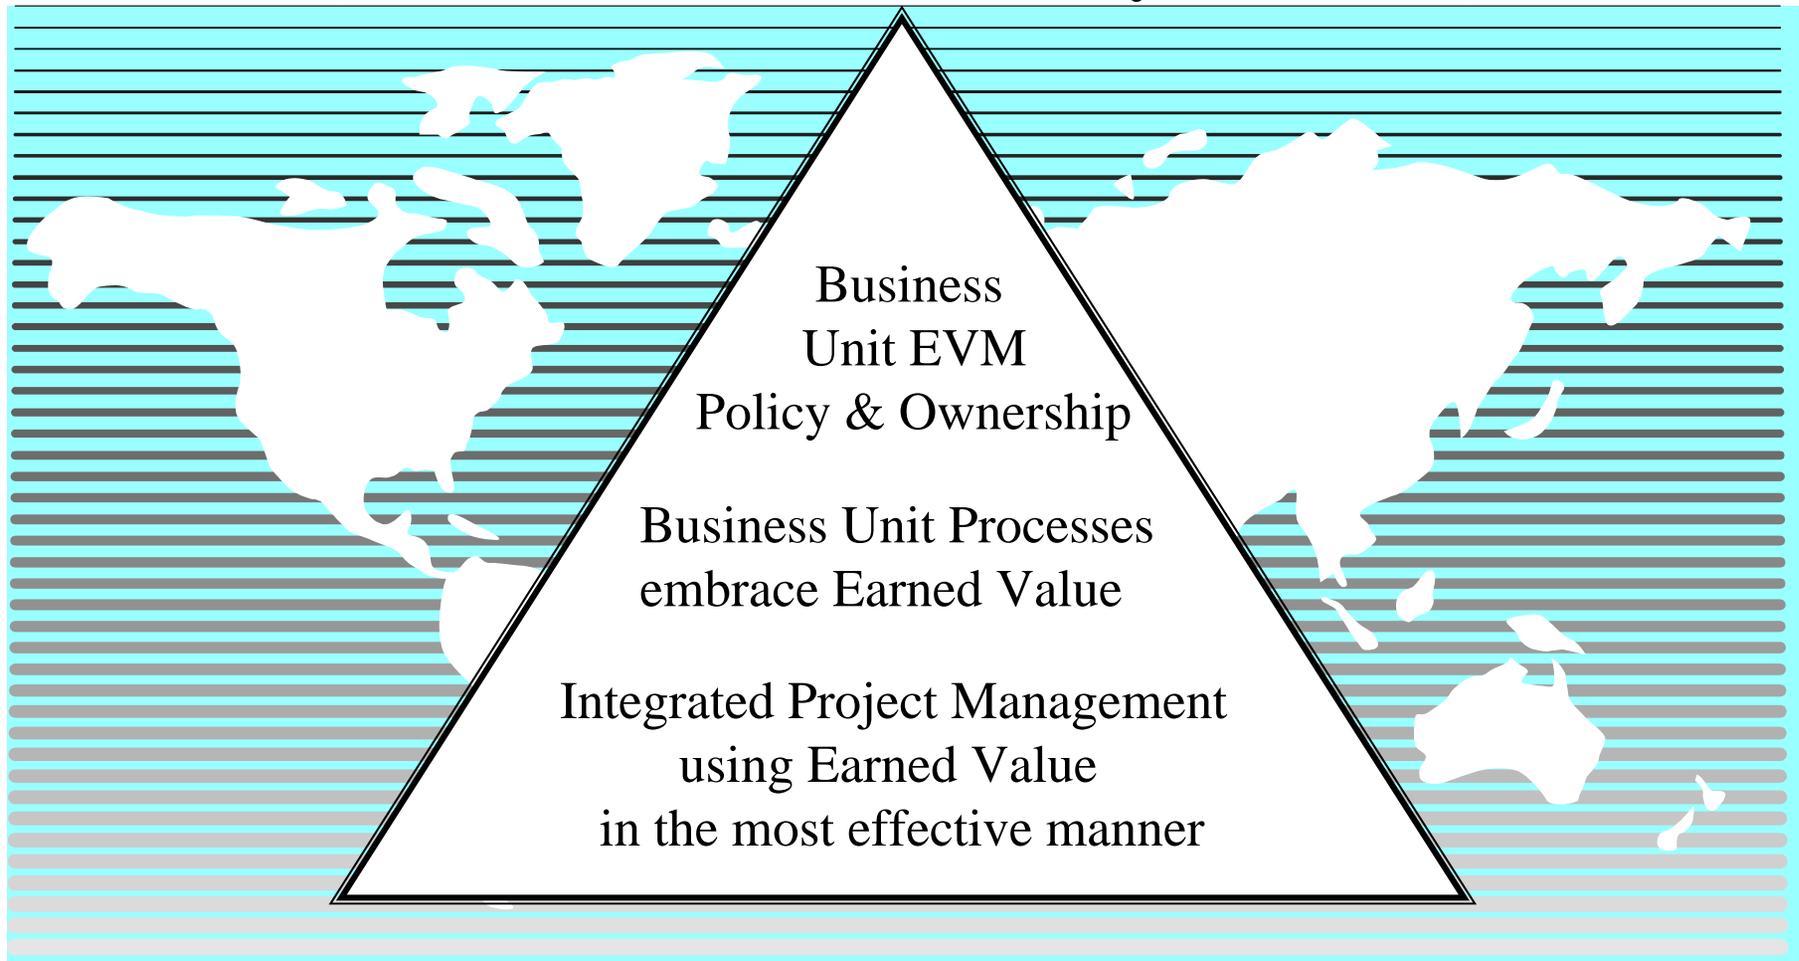

Project by project application isn't good enough.

Roadmap From Requirements to Competitive Advantage

ROADMAP FROM REQUIREMENTS TO COMPETITIVE ADVANTAGE

Integrated Project Management - Competitive Advantage (ALL non-value added activity eliminated)

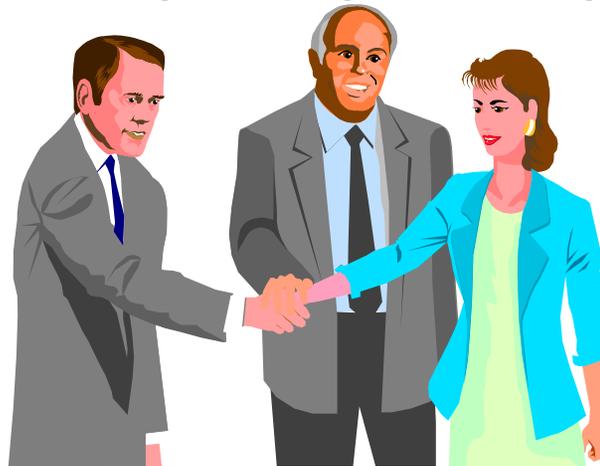

Sustaining the Progress - Industry

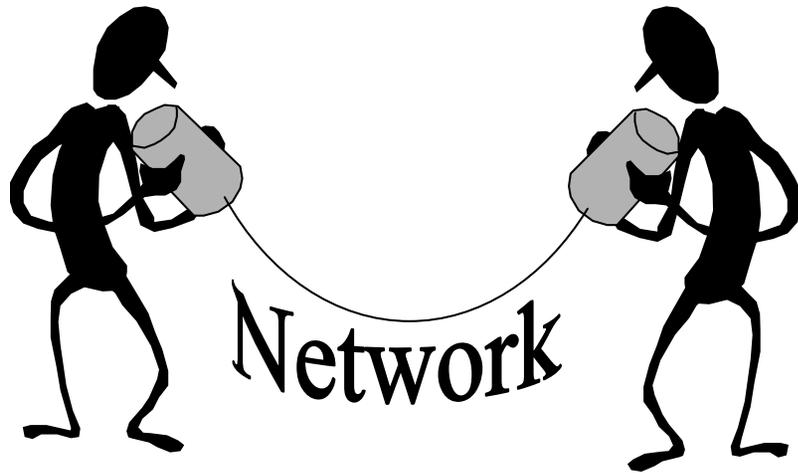

- **Project Management Institute (PMI®)**
 - ◆ **EVMS is part of the PMP® curriculum**
 - ◆ **Annual symposium**
- **Performance Measurement Association (PMA®)**
 - ◆ **Society dedicated to performance measurement**
 - **Annual symposium**

Sustaining the Progress - Government

- **Interagency cooperation**
 - ◆ **Office of Management and Budget (OMB)**
 - ◆ **“One Government” approach**
 - **Coordination between major agencies**
 - **DOE/DoD via:**
 - ◆ **Defense Contracting Management Agency (DCMA)**

Sustaining the Progress (PMs)

- Establish your network
- Use professional society meetings (like this one :-)
- Use the internet (research)
- Share information:
 - ◆ Observing confidentiality and security requirements
- Become a change agent
- Write a paper ... get published
